Dear Sir:

Please amend the claims as follows.

In the Claims

1. (Previously amended) An A/V/C transaction data delivery system, comprising in combination:
 - a plurality of transport controllers;
 - an A/V/C transport layer in operative communication with said plurality of transport controllers; and
 - an A/V/C protocol layer in operative communication with said A/V/C transport layer, said A/V/C protocol layer including means for sending A/V/C transaction data over more than one transport.
